

Error Code 200040

- How to fix the error in Windows

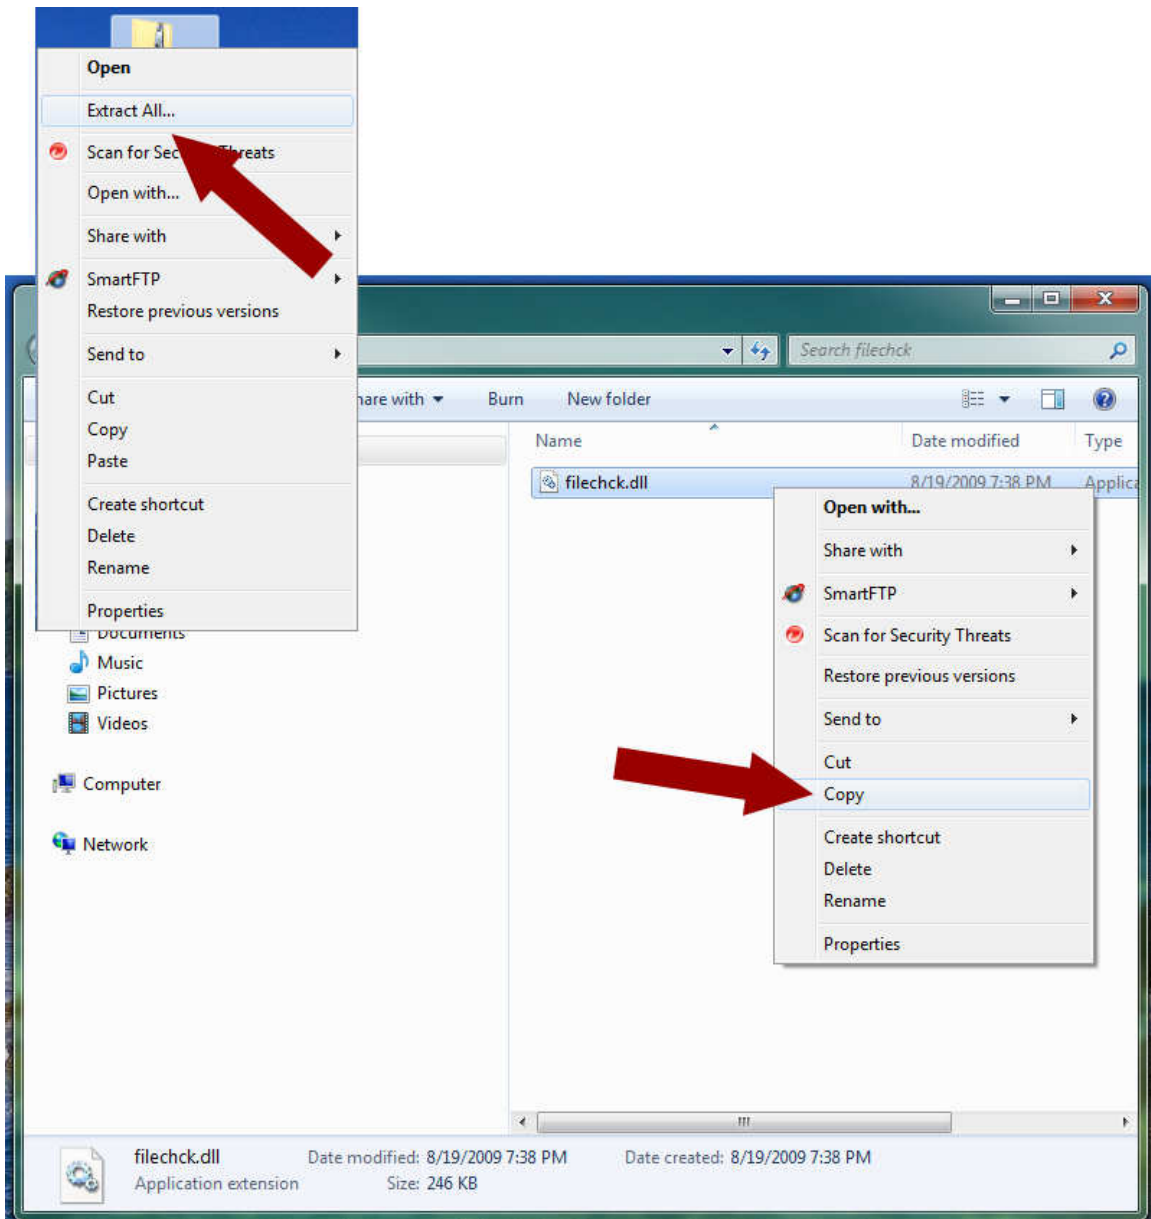

Click on the windows logo and then click on *Computer*

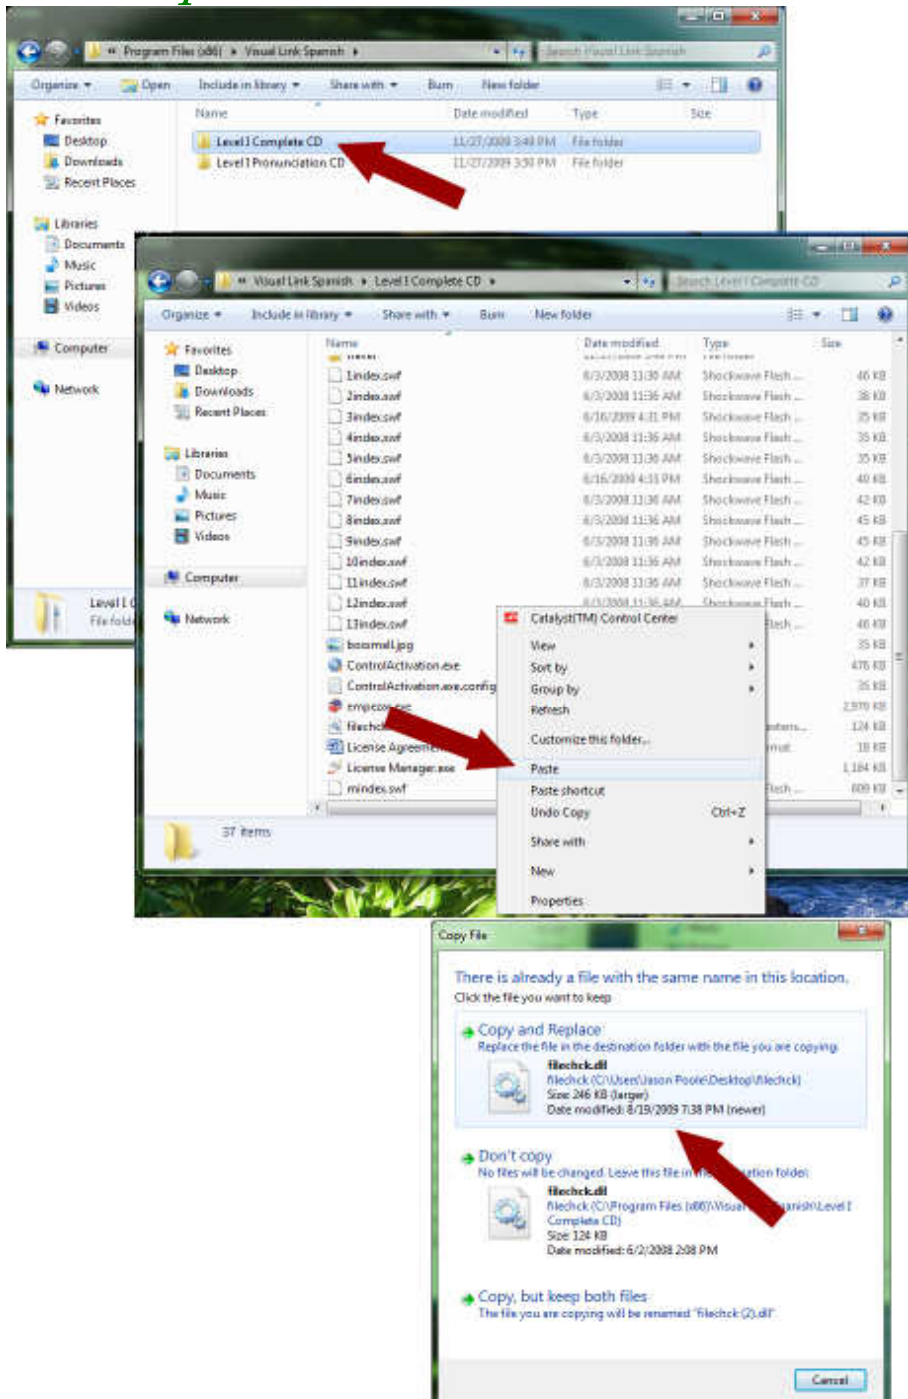

Go to *Visual Link Spanish* inside of *Program Files*.

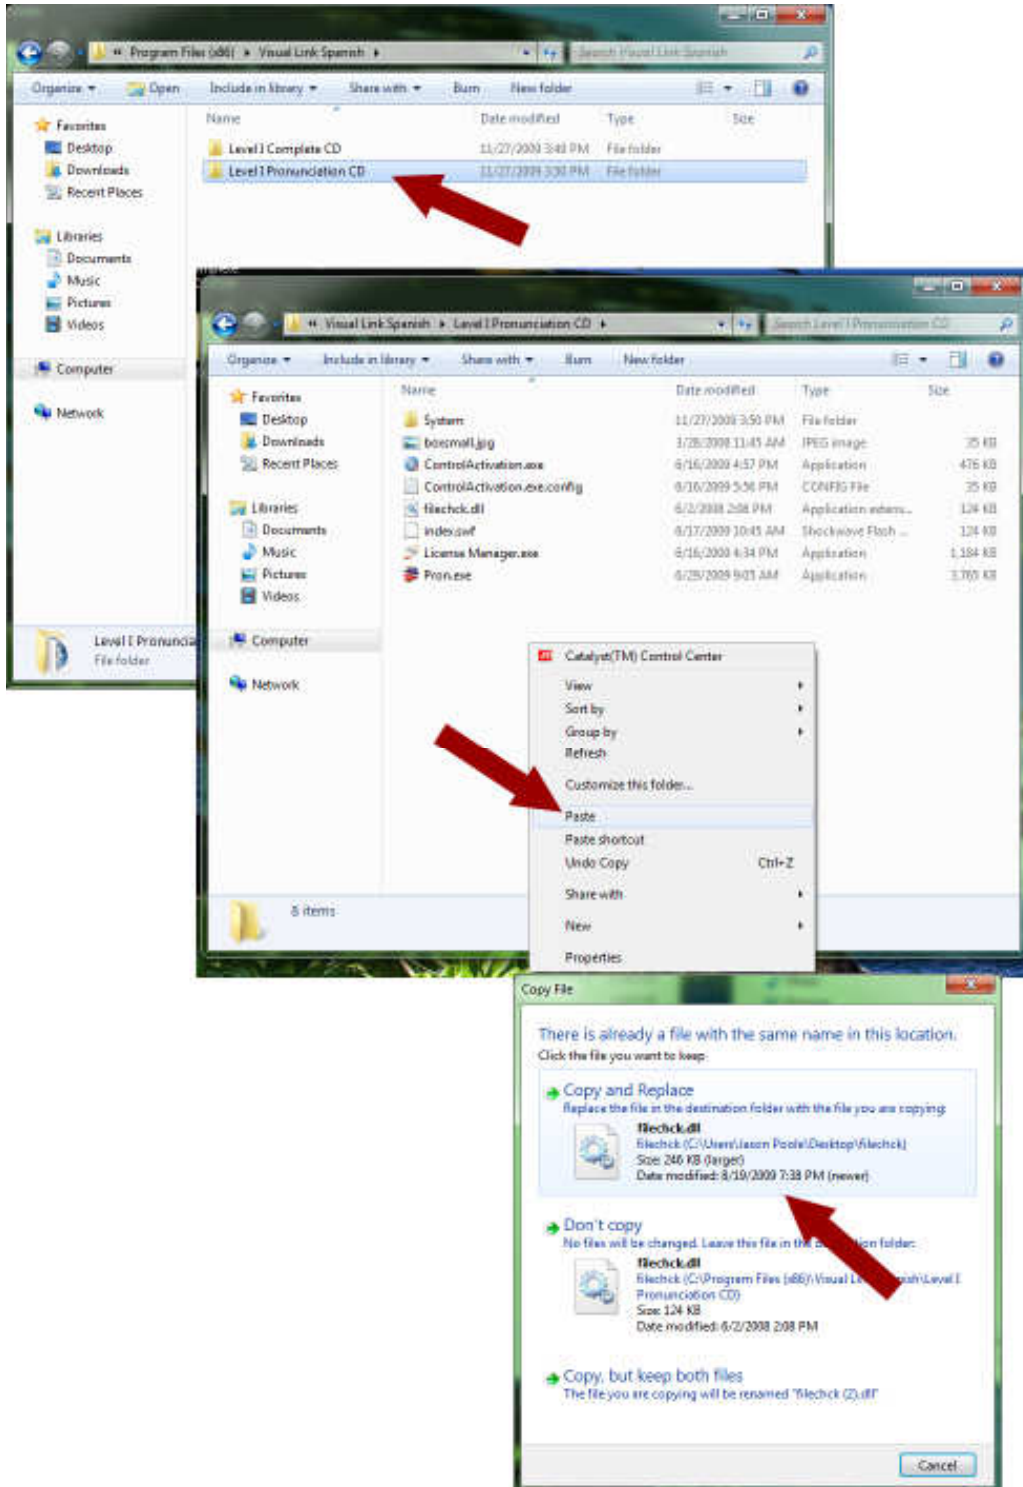

Minimize the window you have been working with. Find the file *filechck.zip*. Unzip it by *RIGHT* clicking and choosing *Extract All*. Follow the prompts. When complete, you will see one file: *filechck.dll*. Copy it by *RIGHT* clicking and choosing *Copy*.

Now, go back to the window you minimized. Go inside the *Level I Complete CD* folder, *RIGHT*click, and choose *Paste*. It will prompt you if you want to overwrite. Choose *Copy and Replace*.

Now, do the same thing, but in the *Level 1 Pronunciation CD* folder.

That's it!

Try again to activate the course. If it still doesn't work, please give us a call at 866-977-2647 or email support@spanishprograms.com.
